The catalog is there but how can someone register for the sessions and hands-on labs ? Is this not open yet ?

Thx,

Gabriel

Hi Gabriel,

At VMworld Europe we will not have any pre-session enrollment. All sessions are come-first basis, but one improvement we are making is that most sessions will be repeated so attendees have more changes to go see a session. If we see during the event that a session has been overfull at all times we can even schedule an extra repeat of the session.

Same things counts for the hands-on labs.
