Sep 10, 2007

In addition to being at the physical conference, VMworld.com is offering online Virtual Exhibitor Booths where you can display your virtualization offerings all year long and stay in touch with your customers, other vendors and the entire virtualization industry. Get valuable and timely feedback from the community and interact directly through various community services.

For more information on pricing, features and setup, please [Request a VMworld.com Exhibitor Booth](#) and we will contact you.

thanks,

VMworld.com Community Team
