Sep 24, 2007

Hello,

Can I attend VMWorld 2008 and receive a discount on the VMWare VCP training? It's costly and I'm paying out of my own pocket.

Thanks.

This is a great question, I think they had onsite testing last year. I will send an email to the program manager, I would hope they would let you take the labs at VMWorld and then sit for the exam 😊 I'll try to get back to you...

Thanks for responding. I anticipate that the answer will be yes. Please say it's a done deal.

I am also interested in knowing more about this. Did you get any more information about it?

Thanks in advance

Sir,

I did not hear anything back from anyone. Looks like we will have to fork up the big bucks. Let me know if you find out anything.

James,

Does this mean that I will not have to go and attend authorized training from VMWare or will the hands on labs accomodate that need.

NO. All pre-requisites still apply.
