Does anyone know if the pavilion is open on Monday? I've searched VMWorld.com but can't find any info one way or the other. I'm trying to schedule everything and all labs on the Monday are booked. Figured I'd use an open Monday to blitz the vendors, but if that isn't open I'll change my flights around.

The Solution Exchange is open from 5:30 to 7:30 on Monday. 5:30 is the Welcome reception and the exhibit area doesn't open until then.
