Hi Everyone,

Just wondering how many people going to VMWorld are from the New England area. I work in Middletown, RI. We just set up 2 ESX servers and Virtual Center, and have all of our VMs running on an Equallogic SAN.

I'm looking forward to the conference because I'm very interested in learning more about VMWare Infrastructure and Site Recovery Manager, and also how other companies are using these technologies. Plus it'll be my first time in Vegas, and it sounds like there is plenty of fun in store for us!

Anyway, if you're from the area, give a shout out, and tell us a little about yourself if you want.

9 days and counting!

Hi Michael,

I work at APC over in West Kingston and will be attending.. I also know a couple of folks from JWU and frm TJX Corp. will be attending.

Hi All-

There will be two of us attending from the TJX Cos in Framingham. Looking forward to a great conference, and a good time in Vegas!

Attendees from New England

I'll be heading to VMWorld from Burlington, Vermont. I work for a small medical software company, PKC Corporation. This will be my third VMWorld in 4 years. Some of our developers have been using Workstation for years. We've been using ESX in testing environment for about 3 years and in various production environments for 6-8 months.

Hi,

I work in Warwick, RI. We've implemented two ESX servers and an EqualLogic SAN. We added a second SAN earlier this year. This will be my second VMworld conference and am looking forward to it.

Kim

Mike,

We're looking for someone to drive us around Vegas, just like in LA. Are you up for it?

Jim
