I will be coming from St. Louis MO (I know...not Kansas, but close) for my first VMworld conference. Speaking of Kansas...a great prog rock band (of the same name) hails from there.

Kansas VMWorld Attendees?

A couple of us from Topeka will be attending.

Staying at the Wynn so everyone should get together if you wanted to exchange ideas or just chat.

We're over at the Mirage. Anyone can shoot me an email justin.watermann@raytownschools.org for either my cell or just email and we can meet up somewhere, I'm primarily around the Xiotech booth in my free time.... 1134 I think is the number.

I'll be there. I'm the current leader of the KCVmUG so I'd love to get together with some of you and get your ideas on how to make the group better (or go down to the sports book and check out the odds of the Chiefs winning the Super Bowl). I'll be staying at the Venitian.

Got another from KC here heading out Monday morning. I'm going it alone

so I'd love to meet up with fellow locals and meet some of the KCVmUG

people. Maybe someone can find out if Irish Spring has the dish on some extra VMWare type parties to attend ;). - Matt

I'm in KC and fly out at 9:00 tonight. Staying at the Venetian as well. Would like to hook up with the KCV MUG gang if we can work it out.

Jim
