

Have 2 minutes to help us out?

Aug 5, 2008

I work for Tripwire and we are gathering information about VI Admins - very basic stuff. We have a survey out there and it will take you less than 2 minutes (probably 30 seconds). We are giving away an 160gb Apple TV - if you help us out you can have a chance to win. We are working to develop products that help people working with virtual infrastructure, and if you can spare a couple of minutes, your input would be really valuable.

The survey is at the link below:
