Aug 22, 2008

I lost two USB flash drives, an RSA token and a key that were all attached to each other on Tuesday morning between 11 am and noon. If you found them, please contact me at 207-807-1374 or emailing brobinsonus@gmail.com. I would like to get these items back as soon as possible.

Thanks!

Items have been recovered. Found new location of the security office and they were found in a trash can by one of the security guards.

Can you tell me where the new location of the security office is? I have also lost a keychain---RSA SecurID with a red and black Corsair USB drive and a single key. Thanks.
