

Did the Twitter questions for Paul...

We asked some questions at VMWorld on Twitter that Paul Maritz was going to answer at the keynote - but did not. Did they ever get answered and posted somewhere?

I haven't seen anything posted. There was a Q and A session with Paul and Steve Herrod immediatly following Paul's kenote. I did attend that session and I posted my notes - http://www.vmworld.com/vmworld/blogs/todd_muirhead/2008/09/16/notes-from-q-and-a-session-with-paul-maritz \

This session seemed to be cut short, ending about 5 or 10 minutes early as well - it's really understandable considering that Paul had just done a lengthy keynote and probably ready to stop talking.

Hopefully somebody will get the twitter q and a posted.

Todd
