I'll be flying out from the States for the event to support some of the traction we're seeing in EMEA. Looking forward to getting back to France!

I'm attending VMworld Europe 2009. Last time was a great success, especially the Partner Day and the Solution Exchange.

Jason, let's plan a JUG (Jason User Group) while we're out there. I keep an eye on your blog and I also run a VMUG (Washington, DC Metro Area).

I'm sure we can find a place for some beers.

Who's heading to Cannes for VMworld...

Cheers.

I had some doubts if I should attend VMWORLD or follow a training about VI3.5

Comparing the cost I decided to attend VMWORLD. Next week we start with the virtualisation of our serverfarm and I would like to be well informed about all the possibilities within VMWARE. Also I hope to learn more about the different aspects within VMware server, VDI, etc.

It is also helpful to see what the future may bring, so I'm counting the days.

By the looks of this thread, I'll be the only 'out-of-towner' from Canada?

(yes, running away from the -20 weather)

I will be there travelling down from Manchester UK by train looking forward to it as this is my first Vmworld.

I currently work for Siemens as a contractor so looking for good ideas to survive the credit crunch
