Hi all,

My one of friend has ESX server 3.5 ,when i had discussed with him regarding 3.5, he replied that, it is free to use.

Can any one use it in productiong environment?

Thanks & Regards,

Ashish Barot.

Hi Ashish,

VMware ESX 3.5 is not free to use. It comes with a 60 day trial which you can use. ESXi is the version that is free. Maybe your friend was referring to that?
