I don't know what the location is, probably Palais de Festifal just as last year.

There is one thing I DO know, last year the party was 'DA BOMB', so it's a must for this year.

VMware/VMWorld is famous for its parties because all ingredients are 110%. Food, entertainment, artists, etc. The party is on Wednesday evening from 20-24h

+1. Greatest VMware party that I've attended yet.

Although the New England VMUG in the States does a great lobster bake up in Maine.

After all that learning, you'll

want to party! Come to the VMworld Europe Party on Wednesday February 25, 20.00

refreshments and find out all about Cloud9!

Any ideas about this years theme? Cloud9?

Same here, but last year, I was alone too, but I talked with 2 others 'alone' guys and the party was indeed very nice! Don't worry, you'll have a great time there 😊

From everything I've seen around, VMworld party is always great!

The last info on the VMWorld Europe 2009 party from the preview from Richard Gasthagen.

"On Wednesday night the VMworld party "Cloud 9" will lift off. As "Cloud 9" means like being in the 7<sup>th</sup> heaven, I am sure this will be a great spectacle. "
