Once again the VMworld Europe team have ignored the community and refused to allow the VMTN Experts panel to run a Cannes.

You've received a rejection email ? Bummer, that's too bad. I was really hoping to see all the guys together on stage.

I have not received a rejection letter as yet, but the silence is worrying

Wonderful, No VMTN Experts panel for...

The guys from VMware are very very busy organizing VMworld Europe 2009. So maybe they will allow the VMTN Experts panel to run at Cannes but they haven't had a chance to reply.

This sounds exactly like the thing we encountered with our bloggers invitation. We replied to the invitation but never received a confirmation or anything. So we kept calling, e-mailing but without result so today we contacted our VMware Partner Manager and he contacted Richard and 1 hour later all was well.

So don't let your head down and call, mail, etc and give us the opportunity to meet you guys

What is telling is the lack of an official comment in this thread. I would have thought that they would have been monitoring

I did expect the VMworld crew to monitor these topics to keep in touch with the community and answer any questions about the upcoming event. I certainly hope they do because

Wonderful, No VMTN Experts panel for...

I posted a question relating the topics of the 2009 edition of VMworld Europe (<http://www.vmworld.com/message/4332#4332>) and I hope to get an answer before the end of Februari.

[begin transmission from VMware Borg](#)

**ATTENTION:** The VMware Borg has taken control!

VMTN experts cannot be trusted to speak corporate line. Resistance is futile. Come pay money, attend our conference, so we can market to you and practice mass hypnosis during keynotes.

Wonderful, No VMTN Experts panel for...

Let's hope this is not the case. VMTN experts panel is a highlight of VMworld, for me.

Allegedly yes, but there still has been no official statement for VMware as to the true status.

If it makes you feel any better I just go my notification yesterday that I was participating. I think they're still sorting some stuff out.

Looking forward to seeing everyone there!

Jason,

Steve has been with Tripwire for a couple of months, it was an open secret in VMworld.

Hey Jason,

I officially started with Tripwire at the beginning of December. 😊
