Couldn't find booth #59 for StorMagic to download their SvSAN appliance. Any ideas?

Hello Roman. Booth #59 will be located in the new innovator section at VMworld. You can also visit us at [www.StorMagic.com](http://www.StorMagic.com) on the 24th of February at which point you will be able to download a FREE version of the SvSAN as long as you enter promo code "freesan09".

No, it doesnt work. You are not sending links to download. I made about three attempts today and this is what i got every time:

"Promotional Code freesan09

Thank you for registering to download StorMagic's SvSAN software. We will be sending you a link to the download site shortly. In the meantime, if you have any questions, please call (800) 517-5282 or in Europe +44 (0) 117 952 7390.

StorMagic

In just a few days, SvSAN will enable you to:

1. Share clustered datastores
2. Manage your datastores, SAN & RAID from your vCenter console
3. Provision datastores with a single operation
4. Create a highly-available ESX environment with the optional SvSAN high availability software

Thank you,

StorMagic"

Hello Roman:

Thank you for your continued interest in the SvSAN download. We are currently finalizing the product for download and it should be good to go within the next few hours. With some of these tests being carried out in the US, I understand that this is later in Europe because of the time difference. We will make sure to contact you when it is downloadable and I will also post a blog on the site to notify that is ready. Thanks for your patience..
