Aug 5, 2008

On February 24th, don't forget to visit StorMagic at Booth #59 for their FREE SvSAN. The SvSAN is a FREE Storage Virtual Appliance that allows you to unlock the many benefits of your ESX server. Finally, there is a solution rather than buying expensive SAN solutions to leverage the many benefits of VMware. Visit [StorMagic.com](http://StorMagic.com) and check out our demo below.
