

# What's your opinion on Storage Virtual...

---

Storage Virtual Appliance 4 posts since

May 8, 2009

A few days ago, an article talking about how Storage Virtual Appliances had taken center stage was posted at <http://www.vmworld.com/thread/2893>.

There is clearly a lot going on in the server virtualization market these days with HP recently announcing their new virtualization bundles that incorporate a Storage Virtual Appliance from LeftHand (acquired by HP). At VMWorld last fall, VMware started to promote the concept of Storage Virtual Appliances and presentations on vSphere 4.0 include Storage Virtual Appliances as an area of interest for VMware.

So what are your views? Take a few minutes and fill out this short survey to give us a better understanding of what is going on in the market around SVAs. For your generous time, we will qualify you to win a copy of "The Green and Virtual Data Center" by leading technology analyst Greg Schultz, who was named an Eco-Tech Warrior by the Minneapolis St. Paul Business Journal.
