

Thin logon script problem

Ravinder 4 posts since

May 20, 2009

when i run the thinapp logon scripts to register all the apps which i prepared from thin app with thin reg is not working

the scripts contents are

```
If UCase(vm1) = "vm1" Then
```

```
WSHShell.Exec("""%LOGONSERVER%\NETLOGON\THINREG.EXE"" ""  
10.1.x.x\Thinapps\Thinapps\Mozilla Firefox.exe"" /Q")
```

```
End If
```
