

Veeam Backup & Replication

[Carrie Reber](#) 1 posts since

Sep 10, 2007 I've heard this solution works well with Veeam Backup & Replication...

Carrie, thanks for the post.

Yes, HyperIP and Veeam Backup & Replication work very well together. We encourage all Veeam customers that want to try HyperIP to visit our website for a free trial and download. Veeam customers that operate on networks of 2Mb or less can receive 2 free one year subscriptions of HyperIP by simply visiting the NetEx website at www.netex.com. Thanks again.
